**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-9, 14 and 15, drawn to a method of cleaning granular materials using electrostatic disruption and air cleaning.

Group 2, claim(s) 1-8, 10, 14 and 15, drawn to a method of cleaning granular materials using an applied vacuum.

Group 3, claim(s) 1-8, 11, 14, and 15, drawn to a method of cleaning granular materials using optical scanning.

Group 4, claim(s) 1-8 and 12-15, drawn to a method of cleaning granular materials using mechanical sorting.

Group 5, claim(s) 16-24, drawn to an apparatus for removing contaminants for pellets including a deduster.

Group 6, claim(s) 1-8, 11, 14, and 15, drawn to an apparatus for cleaning materials using contaminant remover.

2. The inventions listed as Groups 1-6 above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: each group contains a different special technical feature as set forth in the definition of the groups above.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
